⊙ sebacherny   in sebascherny   📊 sebach

I'm a 5th year Math student. I'm interested in programming as a tool for solving complex problems, from real life situations to competitive programming.
My biggest strength is learning on my own but I'm also a team player and value the opportunity of learning from others.

Education

Bachelor's degree in Math ("Licenciatura")
Faculty of Exact and Natural Sciences, UBA

📅 2014 – Present (until July 2023)

### Technical school with ICT specialization
Escuelas Técnicas ORT

📅 2009 – 2013

Skills

Python
Javascript
React
Django
PostgreSQL, MySQL
C++
Linux, macOS
unittest/Jest
Go

Interests

Competitive programming

Teaching science

Scientific dissemination

Experience

Full-stack developer
Freelancer (Toptal)

📅 Sep 2022 - Ongoing   📍 Remote

Working in different full-stack projects for different clients, generally using React, Python, Django and Postgresql, publishing projects in Heroku and Render.

Software Engineer Intern
Facebook Inc

📅 26 Jul 2021 – 15 Oct 2021   📍 London

Working full-stack using Hack/PHP, React and GraphQL. Moved system for Identity Verification for running Political Ads in Brazil from deprecated system to new one in Comet. Launched without issues, getting 2000 exposures per day.

Software Engineer
Brightsector

📅 October 2016 – Ongoing   📍 Argentina

Code maintenance and creation of frontends (Django). Use of Python, Icinga web and Linux server to create tests for mercadolibre's API to check new code deployed

Software Engineer Intern
Facebook Inc

📅 6 Jan 2020 – 27 Mar 2020   📍 London

Working full-stack using Hack/PHP and React. Improved the experience of selling products through any Facebook product (Instagram, Marketplace, etc.).

ACM ICPC

📅 2016 – 2021   📍 Argentina

Classification to regional contest

Software Engineer
Brightsector

📅 Feb 2014 – Aug 2015   📍 Argentina

Use of Javascript, Python, Java, HTML in Linux system
Creation of web scrappers in Python
Use of Selenium to check inbox capacity in gmail

Iberoamerican Physics Olympiad

📅 2012 and 2013   📍 Dominican Republic and Spain

Silver medal (best experimental exam in 2012)
